

Doodle Doughnuts

HAND PAINTED SHOES

Hi there, I'm so glad you picked up a flyer! this is the part of the flyer where you get to know a little bit about me! Hmm... where to start? Well my name is Afraa, I'm 13 years old and I love everything cute and creative! I love painting, doughnuts, and cats. Other than all that I started a business which is a huge step forward for me because I love how I can create things and share them with people like me, people who can enjoy my art, and people who I can make happy!

ABOUT DoodleDoughnuts:

DoodleDoughnuts is a handmade business I recently started where I sell hand painted shoes that are made to show off your personality! Whether that be quirky and silly, filled with wanderlust, or just super happy and fun! I assure you that you will find the perfect pair of shoes, that show off exactly who you are!

DoodleDoughnuts: Q AND A

Why is the business called DoodleDoughnuts if you sell shoes?

Well the name 'DoodleDoughnuts' is fun, cute, and pretty memorable and that's exactly what I want my business to be!

How long does it take to do one pair of shoes?

That depends on the design but usually it takes from 2 hours to up to 20 hours! That includes drawing the design, painting it, and drying time.

What sizes do you sell?

Sizes 6-10 (women's sizes)

how weather proof are these shoes?

I spray each shoe with a varnish that protects the shoes from rain and UV, but I would still suggest not to wear them in extreme weather conditions.

How about custom orders and returns or refunds?

For now since the business is just taking off I'll be taking only a couple of orders (so order now before it's too late!) and as of returns or refunds, I don't do them... sorry. I can only hope you appreciate the products and are satisfied with your purchases!

Do you take credit or debit cards?

Right now I only take cash but hopefully soon all of DoodleDoughnuts costumers will be able to pay by debit and credit!
